

HVAC/Sheet Metal Fasteners

APPLICATIONS

STANDARD SIZES

Metalfast SDi™

Fasten building trim, steel decking sidelaps, sheet metal duct straps to steel with a total thickness of .140" (10 gauge). Forged point drills quickly and does not walk on the metal. Electroplated with .0003" zinc.

#8, #10, #12 diameter
(#2 Phillips Pan Head,
1/4", 5/16" across flats
Hex Washer Head)
Lengths: 1/2", 5/8", 3/4", 1",
1 1/4", 1 1/2"

Metalfast SP™

Fasten gutters, downspouts, and furnace duct straps. Super sharp point penetrates steel thickness up to .048" (18 gauge) and is used when self-drilling tip is not required. Electroplated with .0003" zinc.

#8, #10 diameter
(1/4", 5/16" across flats
Slotted Hex Washer Head)
Lengths: 1/2", 3/4", 1"

Blind Rivets

Fasten building trim or other accessories where a finished appearance is important. Accepts paint to match any building trim color. Available in carbon steel, aluminum, or 304 stainless steel.

1/8" diameter
Grip Range: 1/16" - 1/4"
