

FMW100™ LOW PROFILE RIDGE VENTILATOR

MODEL FMW100-35 • 3-1/2" THROAT

ALL PLYCO
RIDGE VENTS ARE
G-90
GALVANIZED

PLYCO FMW-100-35
painted steel
Ridge Vent

Translucent
fiberglass rain
diverter

Rain and Snow
weep out here

Natural
Light

Natural
Light
Comes
into
Building

The Plyco
FMW100-35
provides a large
vented area of 36 sq.
inches per foot of vent
and helps eliminate
constantly dark
buildings. The
translucent
fiberglass rain
diverter
directs water
out but lets
the sun
shine in.

Warm humid air
is exhausted out
the Ridge Vent

*Keep all the features of our MW100-35 Ridge Vents —
BUT NOW you can get the natural light built right in!*
