

Stop heat loss

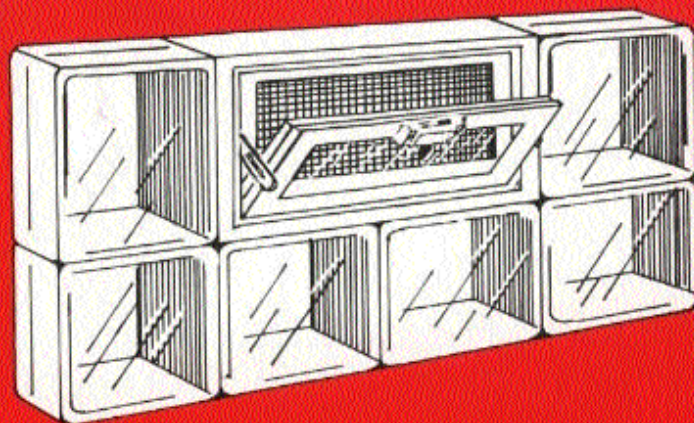

Series 6200 Glass Block Ventilators Residential Series

The white vinyl frames complement the glass block in providing a maintenance-free, warm, and attractive installation. All 6200 Series are full bound weatherstripped with compression seal and equipped with storm and screen. U-FACTOR Double-Glazed 0.52. Available with Clear or Obscure Glazing.

"The only vent which compliments the insulating qualities of glass block."

With the ever-increasing awareness of energy conservation, the Plyco Series 6200 offers warm vinyl frames to reduce thermal conductivity and eliminate maintenance.

Ideal for installation in both new and replacement construction with sizes to fit all modular glass block.
