CUPOLAS & VENTS

WHY ROOF CUPOLAS?

METAL CLAD BUILDING VENTILATION

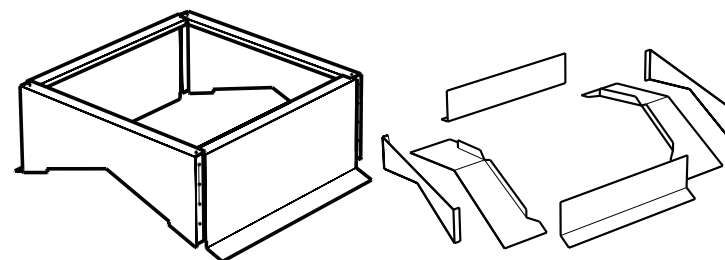

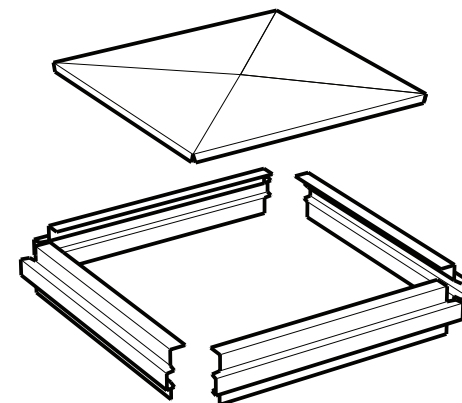

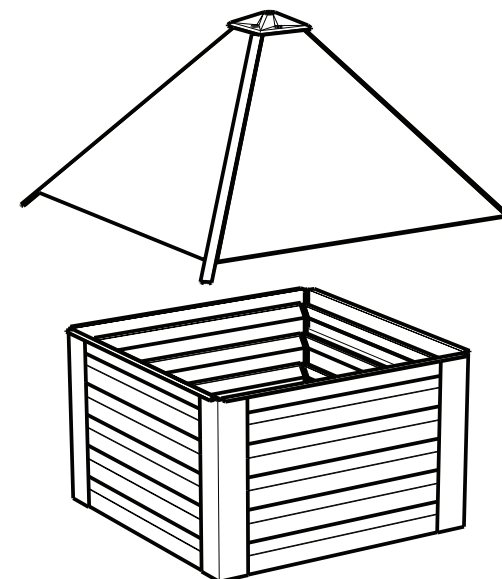

The PLYCO Roof Cupolas provide options for Curved Roof, Straight Roof, Louvered Sides, Lited Sides, Premium Mounting Curb Bases and more so you will always get the perfect look for any applications. The cupolas arrive knocked down for economical shipping and are easy to assemble and install.

- 24" and 36" cupolas are constructed of 29 gauge prepainted steel.
- 48" cupola is constructed with 26 gauge prepainted steel.
- Prepainted galvalume G60, G90 or galvalume steel construction with color combinations that match many roll-formed steel colors. Please specify roll-former when ordering color.
- Assembles on job site in minutes with slide on, interlocking metal connectors for straight or curved roof wall sections.
- Standard steel corner gussets for enhanced structural integrity. (3' & 4' only)
- Plyco cupolas are designed for both decorative and ventilation use. Vented applications are not considered waterproof.

SIDE OPTIONS

- **Louvered**
 - Many standard colors
- **Lited (Patented)**
 - Black - Grid or No Grid
 - White - Grid or No Grid

KEY FEATURES
