WHY SLIDE DOORS?

SLIDE DOOR TRACK, COMPONENTS & KITS

PLY-TRAC

SLIDE DOOR TRACK & HARDWARE

SAVES INVENTORY DOLLARS

Stock only one track. With the optional track brackets, build any style sliding door.

VERSATILE
Offers a choice of mounting brackets for various applications.

SYSTEM FOR 1 1/2" & 3 1/2" COMBINATION WOOD/METAL & ALL METAL FRAMED SLIDE DOORS

SYSTEM STRENGTH

Heavy main wall on verticals combined with steel box girts increases overall strength in doors.

ATTRACTIVE APPEARANCE

Prefinished white aluminum verticals and bottom rails accent colored side-wall metal.

ENERGY EFFICIENT

Optional vinyl weather strip seals entire vertical to jamb.

**MADE OF HEAVY DUTY,
14 GAUGE STEEL
450 LB. CAPACITY**

COMBO

DOOR TRACK

- Combo sliding door track is self-cleaning and self-aligning. Its unique, flat-top design brings extra strength to the track which eliminates deflection from heavy, rolling doors.

- 600 lb. capacity with standard bracket spacing.

- Track is made of 14-gauge galvanized, high-carbon steel that's roll-formed to assure maximum uniformity over its entire length.

- The steel mounting brackets are projection-welded on top of the track at 2-foot intervals.

- Track is available standard lengths from 8-to 20-feet with other lengths available upon request.

Complete Slide Door Packages

- Packaged for quick ordering and shipping to the job site.
- Each package includes all the components needed for common sized openings.
