

DUTCH DOOR (4700) AND BALE DOOR (4350) DATA SHEET

Our pre-assembled Dutch Door and Bale Door panels are constructed of 16 gauge galvanized steel in 11 different powder coat colors. The panel perimeters are formed from a single sheet of steel (no seams) for added strength and smooth appearance. The core is 25/32" commercial grade OSB board covered with 29 gauge galvanized steel available in 17 colors. Installation hardware is included along with instructions. We also offer two styles of jambs which are designed to work with the pre-assembled doors. In addition, we offer unassembled doors and an optional "Panel With-A-View."

Physical Characteristics

Rough Opening

SIZES - Dutch Door:	With Jamb System	49-1/2" x 87-3/8"
	Without Jamb System	48-7/8" x 87"
Bale Door:	With Jamb System	49-1/2" x 43-15/16"
